from Sylvester Reddick, Jr.

FILED

AUG 23 2017

Clerk's Office
N.C. Utilities Commission

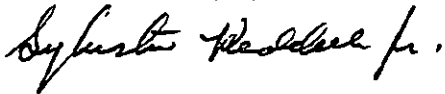

Delta City Community Association
4531 Pilley Avenue
Pantego, North Carolina 27860
August 23, 2017

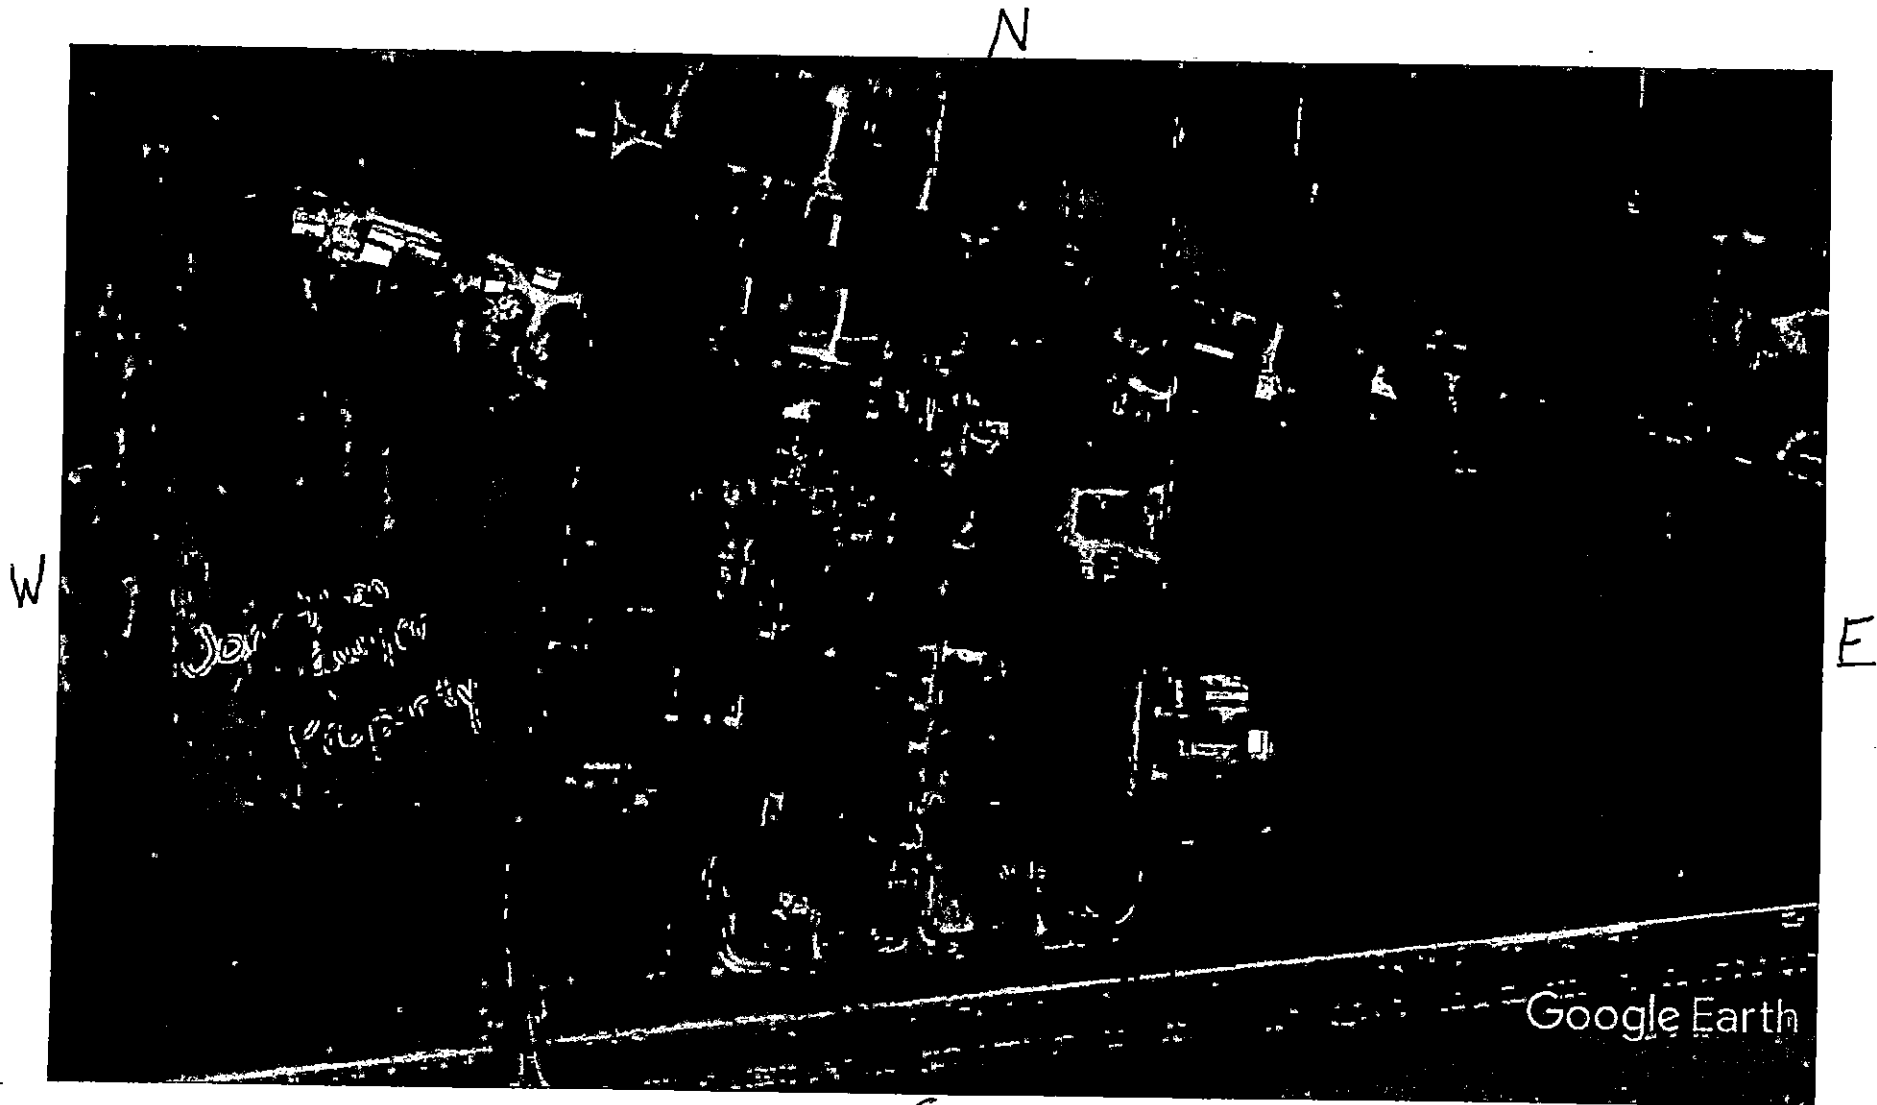

North Carolina Utilities Commission,

We are writing to express our objections to any plans of Wilkinson Solar, LLC. and Invenergy to construct a portion of the facilities needed for its proposed solar project along Terra Ceia Road and Lovick Lane on the property of Mr. Jonathan Sawyer, just west of the Delta City Community. We previously understood from Ms. April Montgomery that these facilities would be located further west on the property of Mrs. Respass. She or any other representatives from Wilkinson Solar or Invenergy never informed us that the Sawyer property was even involved in any way in this project. We now understand that it actually is and that an agent for Wilkinson Solar LLC is negotiating terms with Mr. Sawyer that could bring the battery storage and substation to our Community. We, as a neighborhood of 300 residents, including 2 churches, are opposed to this based on the possible deadly emissions and possible fire and explosion hazards from these batteries along with our existing flooding concerns that will be increased if this project is allowed, along with it's close proximity to our community. We also have concerns about our property values being negatively impacted by this project. Please see attached map that shows our community and the adjacent Sawyer property.

Sincerely,

Sylvester Reddick, Jr., President
