Dear Mr. Christopher Ayers,

Yes, I am "old school". I "say what I mean and mean what I say". I do not "sugar coat" anything. That being said, I am appalled that the State of North Carolina Utilities Commission would consider an increase in any utilities during this Pandemic we are having!

I am a senior and like most, live on a fixed income.

Many other families are out of work, behind on mortgage payments, rent, all utilities and food is scarce. Children are out of school, parents are having to learn to be teachers amid all other stressors and worries of being a parent.

This Docket No. W-218, Sub 526 and all other increases should be denied during this Pandemic.

I live at 409 Farmville Dr., Gastonia, North Carolina, 28056, Robinson Pl. Subdivision.

Enough said.

Brenda C. Losebee
