My area is experiencing weekly outages, usually lasting at least 24 hrs. This has been a growing problem over the last 3 years and is becoming much more frequent. If Duke Energy wants to stick out its hand to us every month, there needs to be some accountability and quality of service as all of their patrons have no alternative but are expected to pay regardless of the quality of service rendered. I am reaching out to you to advocate for the tax paying citizens who are being treated shabbily. Thank you for your time. Sincerely, James Daniel Maybin 828 844 0310

Please "do the right thing" and hold an evidentiary hearing about Duke Energy's 15 year plan. Something so important deserves a PUBLIC airing of facts. Something so consequential SHOULD be scrutinized and debated. Ratepayers and taxpayers have a vested and proprietary interest in the business decisions by Duke Energy. Duke Energy is guaranteed a profit. That is an amazing "deal". But those profits need to come from a business predicated on what is best for ALL stakeholders and partners.

You have an awesome responsibility to represent the public. But it is also an awesome and unique opportunity to create a future that is beneficial for "people, the planet AND profits".

I expect you to stand up and hold a thorough hearing. It is your responsibility, but it is also your opportunity to be on the right side of history.
