I SAY ....

1. NO to a 14.3% rate increase.
2. NO to more investments in fossil fuel plants.
3. NO to charging ratepayers for coal ash cleanups.
4. I Demand that Duke invest in renewable energy instead of fossil fuels.

Duke is totally irresponsible in the care of the earth. Duke is all about corporations greed at the expense of those of us who have lost our jobs in this pandemic. I should not have to pay for coal ash clean up. Have some morals, Duke.
