SP 100 SUB 31

To whom it may concern:

My family owns a home on Ebenezer Church Road in Raleigh, NC. Recently, new housing developments have been completed on one half of the road. Still, further down the road, we cannot get true Broadband Internet access.

Clerk's Office  
NC Utilities Commission

Companies like Time Warner Cable and AT&T refuse to bring Broadband service to the homes further down Ebenezer Church Road. This is no longer a rural area. It is now a heavily travelled road with many single family homes and new condominium-style complexes.

How can we gain Broadband Access from these companies who are restricting it from us? If current companies refuse to provide access, how can we be sure the new Google Fiber coming to the area will incorporate this area into its service area?

Thank you,  
Christopher Walker

Dear North Carolina Utilities Commission,

I just signed a petition addressed to you titled Stand up for solar power over Duke's profits. So far, 63 people have signed the petition.

Clerk's Office  
N.C. Utilities Commission

You can reach me directly by replying to this email. **Or, post a response for MoveOn.org to pass along to all petition signers by clicking here:** [http://petitions.moveon.org/target\\_talkback.html?tt=tt-103634-custom-64698-20251225-ZNXQIX](http://petitions.moveon.org/target_talkback.html?tt=tt-103634-custom-64698-20251225-ZNXQIX)

The petition states:

"I disagree with the fine Duke Energy asked the North Carolina Utilities Commission to enact against NC WARN for selling solar power to Faith Community Church. I urge the Utilities Commission not to bend to Duke's pressure. Instead of fining NC WARN for providing solar power to the church, the Commission should rule in favor of its ability to do so. Please ensure that there is no fine and rule affirmatively that other entities can sell affordable solar throughout North Carolina. Thank you for considering my comments."

My additional comments are:

I think we should fight against any of these company that are against clean renewable energy.
