NC Public Utilities Commissioners

Dear NC Public Utilities Commissioners,

When it comes to the health and well-being of older North Carolinians, affordable electricity is vital. As the state prepares to meet future energy demands, it must also be ready to handle the needs of its rapidly aging population.

In just a few short years, more North Carolinians will be age 60 and over than those under the age of 18. For 36 percent of adults age 65 plus, Social Security is the only source of income in retirement and it averages less than \$1,300 a month.*

When it comes to balancing rent, health care and prescription drug costs, groceries, gasoline and other basic living needs, every penny and every dollar counts.

Please consider the needs of older North Carolinians and those on fixed-incomes when determining whether the company's plans for spending and earning are fair and reasonable.

I urge you to reject this rate increase request!

***AARP Public Policy Institute, Social Security State Fact Sheets 2014**

Sincerely,

**Ms. Sharyn Groh
