) **ORDER SEEKING COMMENTS**
)

BY THE CHAIR: On November 26, 2018 NC GreenPower submitted a revised program plan to the Commission to replace the 50/50 Hybrid pilot program with the Solar Schools permanent initiative. On April 30, 2019, NC GreenPower filed a proposal with the Commission to submit a revised program plan for the Solar Schools program.

According to NC GreenPower, the revised Solar Schools program contains most of the same details as the November 2018 version with the following exceptions:

- The \$4.00 Mass Market (MM) product from the current 50/50 Hybrid pilot will not be terminated as previously filed. Instead, it will continue to be offered to non-Duke Energy customers with some revisions:
 - o Each donation will continue to support both North Carolina RECs and solar installation packages at K-12 schools, but not at the 50/50 split
