Please see comment to Duke Energy's ridiculous request to increase our bills to correct their wrongs: "You know good and well that Duke Energy has plenty of money to cover their cleanup costs for dumping pollutants into our water and to implement a cleaner source of energy so why the hell are you wanting to put the cost off on your customers? How about take some of Lynn's \$21.5M or decrease her pay to a reasonable living wage of \$100K annually to save money you so desperately need? Take those savings and put them towards allll the projects you want rather than taking advantage of your energy monopoly and putting the costs off on us! How disgusting. Please cease your request to put your financial burden on your customers." Please do not allow the bill increase. Please do not allow the bill increase. This is a mega million dollar company - they have the funds!
