Subject: Duke Progress rates hike

As you look at Duke request to increase rates, I hope you examine the situation where many of us retired people are. Our Social Security increases are next to nothing, however we are expected to pay for everything else that is going up.

I am sure Duke Progress executives are getting an increase that is much bigger than the 20 dollars more I got with social security this year.

Duke should not need to increase rates. They should try to grow their efficiency and improve in their delivery of electricity to reduce their costs. The impact of the increase will produce many of us critical economic problems.

Please do not accept the increase proposed by Duke Progress
