RE: NCUC Docket No. E-100 Sub 90,
NC GreenPower Board Appointments

Dear Ms. Campbell:

Per the approved program plan for NC GreenPower, NC GreenPower requests that the North Carolina Utilities Commission (NCUC) begins to accept nominations to appoint two Director seats for the NC GreenPower Board of Directors whose terms are set to expire September 30, 2021. The appointment term for each seat will be for three years, or through September 2024. Listed below are the individuals and their respective seats that expire this Fall:

Erik Chris Larsen	Wind and Solar Technology
Beth Ritter	Consumer/Environmental Advocacy

In order for individuals to have sufficient time to nominate themselves or others to be considered for appointment, and for the NCUC to make timely new appointments or reappointments, it is our hope that the nomination period will be open through Friday, August 6, 2021. Thank you for your consideration.

Sincerely,

Victoria McCann
Vice President
