

Re: DOCKET NO. E-100, SUB 90
Order accepting nominations for Board seats expiring September 30, 2021

July 14, 2021

North Carolina Utilities Commission
4325 Mail Service Center
Raleigh, NC 27699-4325

Dear Commission:

This letter is to indicate my interest in the open NC GreenPower Board Position representing Consumer and Environmental Advocacy Interests.

I am currently a Professor at NC State University and have served on the NC GreenPower Board since 2010 in a Consumer and Environmental seat. I am an active member who has participated where needed on strategic planning, resource planning, marketing and the Solar School selection committees during this time. My background prior to NC State was in Consumer Goods companies with my last role as SVP HR for Burt's Bees. In that role I supported and led many of the company's sustainability efforts including purchasing REC's and leading the Foundation as President. I believe these experiences position me well for the board activities that support the mission of NC Green Power. I hope to continue to serve as an active member of the NC Green Power Board.

Sincerely,

Beth M Ritter
