Docket

E-7 Sub 1155

Message

As a Home Energy Rater and building industry professional, I cannot stress enough how much Duke Energy Progress' Residential New Construction Program has done to promote energy efficiency in that territory. The incentive has produced quantifiable savings for home owners and our industry has seen firsthand more savings in the Progress territory, where the incentive has been in place for several years, versus the entire Carolinas territory where it is not available. Having the incentive available in the entire Carolinas territory would be good for residents of our state. I am asking the Commission to weigh in on Docket No E-7 Sub 1155 by directing Duke Energy and gas utility industry stakeholders to come up with a solution that will allow this incentive to be available for Duke Energy Carolinas customers. Thank you.
