Docket No. E-2 Sub 1219

Message

Please do not grant Duke Energy a rate increase. They are not taking corporate responsibility for a problem they created by not paying for proper storage of their coal ash. They are making others pay for their arrogance. I make \$20,000 a year and my landlord is probably not going to fix my drafty apartment. My apartment is very inefficient and paying more to a company that is already making a huge profit without being responsible to the people or the environment is a major problem. Duke needs to tell its shareholders that profit at all costs is counterproductive and hurting people in the process. We are America, we do things right as best we can. This should not stand. Sincerely Jeff Dubnansky P.S. I know that I can make my house more efficiently relatively cheaply and I will and have done that, but i think Duke Energy bears the responsibility of paying for their own mistakes.
