Subject: RATE INCREASE E-2 Sub 1219
Date: Wednesday, April 1, 2020 1:02:16 PM

I am writing in opposition to your plan to increases energy rates when those increases are not planned for renewable energy or for cleaning up your coal ash in an environmentally responsible manner. There should be no rate hikes until you have a plan to shut down all coal powered plants, to stop building more natural gas plants and to transition to renewable energy.
