I have heard from people who are unable to find MDs familiar with the health impacts of EMFS, and are being treated by acupuncturists and chiropractors who would be happy to sign the verification form, but because they are not MDs Duke will not respect their signature as proper validation. Marketing is clearly rolling over science and you are putting children in possible danger with these devices. Worldwide WiFi is being pulled from schools and "nobody" has ever said WiFi was safe...they just aren't sure and that isn't good enough for my children and grandchildren. https://www.youtube.com/watch?v=z99_SzoXZdY Duke Power since 1992 105 Smallwood Court Hillsborough, NC 27278
