Dear North Carolina Utilities Commission,

I just signed a petition addressed to you titled [Stand up for solar power over Duke's profits: Take action now!](#). So far, 35 people have signed the petition.

You can reach me directly by replying to this email. **Or, post a response for MoveOn.org to pass along to all petition signers by clicking here:** http://petitions.moveon.org/target_talkback.html?tt=103634-custom-64698-20251221-OO841R

The petition states:

"I disagree with the fine Duke Energy asked the North Carolina Utilities Commission to enact against NC WARN for selling solar power to Faith Community Church. I urge the Utilities Commission not to bend to Duke's pressure. Instead of fining NC WARN for providing solar power to the church, the Commission should rule in favor of its ability to do so. Please ensure that there is no fine and rule affirmatively that other entities can sell affordable solar throughout North Carolina. Thank you for considering my comments."

My additional comments are:

More solar power should be available to everybody at lower cost. Coal is no longer the main source of our energy, since it has been shown to be the major pollutant.

My additional comments are:

Unfair, wrong, and probably unconstitutional.
