Clerk's Office
N.C. Utilities Commission

Dear Utilities Commission-

I am writing in regards to Docket SP-100 Sub 31 to express my support for NC WARN. I strongly believe that Duke Energy should not be permitted to have a monopoly on providing energy in NC and that we should be encouraging competition and alternative sources of energy. I fully support having options for installing solar that minimize the up-front costs which are one of the bigger barriers to adoption. Thank you for consideration of my viewpoint.

Sincerely,

Jeff Marcus
Pinehurst, NC

The NCUC should side with Faith Community Church and NC WARN and allow third party sales of renewable electricity. Increased competition on this front will be good for the economy, the reliability of our electrical grid, and the environment. It is a win / win.

Very truly yours,

Elaine Robbins

N.C. Utilities Commission**

Dear Sirs/Mesdames:

The Utilities commission should not fine NC WARN for selling solar electricity to a church. Third party sales of electricity from renewal sources should be allowed. Don't support the Duke monopoly and don't strangle efforts at competition by small producers of renewal electricity.

Yours sincerely,
Stephen Weissman
Asheville, NC
