Subject: PSNC Energy rate increase request

I am writing on behalf of those on a limited and fixed income, myself included, to ask for your help on the 9.7% rate increase being requested by PSNC Energy.

Although I understand that increases are a way of life, but this percentage rate is too high for the senior community. That extra \$3.41 per month may not sound like a lot to you but to us, it is a loaf of bread or a container of milk.

Those of us on a limited income are having a difficult time making ends meet as it is yet when any vendor raises their rates it becomes a hardship.

Thank you.
Diana Asbury
