Ms. M. Lynn Jarvis, Chief Clerk North Carolina Utilities Commission **Dobbs Building** 430 North Salisbury Street Raleigh, North Carolina 27603

> Petition for Annual Review of Gas Costs Re:

Docket No. G-5, Sub 608

Dear Ms. Jarvis:

Public Service Company of North Carolina, Inc., submits for filing in the abovereferenced docket its Direct Testimony of Rose M. Jackson and Candace A. Paton.

Please do not hesitate to contact me should you have any questions. Thank you for your assistance with this matter.

Very truly yours,

/s/Mary Lynne Grigg

BEFORE THE

NORTH CAROLINA UTILITIES COMMISSION

PUBLIC SERVICE COMPANY OF NORTH CAROLINA, INCORPORATED DOCKET NO. G-5, SUB 608

DIRECT TESTIMONY

OF

ROSE M. JACKSON

MAY 31, 2019

- 1 Q. PLEASE STATE YOUR NAME, BUSINESS ADDRESS, BY WHOM YOU
- 2 ARE EMPLOYED, AND IN WHAT CAPACITY.
- 3 A. My name is Rose M. Jackson and my business address is 1300 12th Street, Suite
- F, Cayce, South Carolina. I am employed by Dominion Energy Southeast
- 5 Services, Inc. ("DES Services"), formerly SCANA Services, Inc. ("SCANA
- 6 Services"), as General Manager Supply & Asset Management.
- 7 Q. WHAT ARE YOUR RESPONSIBILITIES?
- 8 A. I am responsible for managing the Gas Supply Group, which supports the gas
- 9 supply and capacity management functions for Public Service Company of
- North Carolina, Incorporated, d/b/a Dominion Energy North Carolina (the
- "Company"), and its affiliate Dominion Energy South Carolina, Inc., formerly
- South Carolina Electric & Gas Company. Our group's specific responsibilities
- include planning and procurement of gas supply and pipeline capacity,
- nominations and scheduling related to natural gas transportation and storage
- services on interstate pipelines and the Company's system, gas cost accounting,
- state and federal regulatory issues concerning supply and capacity, asset and
- 17 risk management, and gas transportation administration.
- 18 Q. PLEASE SUMMARIZE YOUR EDUCATIONAL AND PROFESSIONAL
- 19 BACKGROUND.
- 20 A. I graduated from the University of South Carolina in 1988 with a Bachelor of
- 21 Science degree in Accounting. Following graduation, I worked as an
- accountant for a national security services firm. In 1992, I began my
- employment with SCANA Corporation as an accountant. Over the years, I have

- held various positions of increasing responsibility related to gas procurement, interstate pipeline and local distribution company scheduling, and preparation of gas accounting information. In May 2002, I became Manager of Operations and Gas Accounting with SCANA Services and was responsible for gas scheduling on interstate pipelines and gas accounting for all SCANA Services affiliates. In November 2003, I became Fuels Planning Manager and assisted all SCANA Services affiliates with strategic planning and special projects associated with natural gas. I held this position until promoted to my current position in December 2005.
- 10 Q. HAVE YOU PREVIOUSLY TESTIFIED BEFORE THIS COMMISSION?
- 11 A. Yes. I have presented testimony on behalf of the Company many times,
- including its last six annual gas cost reviews.
- 13 Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY IN THIS
- 14 PROCEEDING?

1

2

3

4

5

6

7

8

9

- 15 A. North Carolina General Statute Section 62-133.4 allows the Company to track
 16 and recover from its customers the cost of natural gas supply and transportation
 17 and to adjust customer charges to reflect changes in those costs. Under
 18 subsection (c) of the statute, the Commission must conduct an annual review of
- the Company's gas costs, comparing the Company's prudently incurred costs
- with the costs recovered from customers during a 12-month test period. To
- 21 facilitate this review, Commission Rule R1-17(k)(6) requires the Company to
- submit to the Commission, on or before June 1 of each year, certain information
- for the 12-month test period ended March 31.

The purpose of my testimony is to demonstrate that all the Company's gas costs were prudently incurred during the 12-month review period ended March 31, 2019, and therefore meet the requirement for recovery. My testimony also provides the Commission with information pursuant to the Order Requiring Reporting issued in Docket No. G-100, Sub 91, and describes the Federal Energy Regulatory Commission ("FERC") proceedings in which the Company participated, as required by the Commission's Order on Annual Review of Gas Costs issued in Docket No. G-5, Sub 533. In addition to my testimony, the Company is submitting the direct testimony and schedules of Candace A. Paton for the purpose of providing the Commission with data necessary to true-up the Company's gas costs during the review period.

A.

- 12 Q. PLEASE BRIEFLY DESCRIBE THE COMPANY AND THE
 13 COMPOSITION OF ITS MARKET.
 - The Company is a local distribution company primarily engaged in the purchase, transportation, distribution, and sale of natural gas to approximately 580,000 customers in North Carolina. Approximately half of the Company's throughput during the review period consisted of deliveries to industrial or large commercial customers, many of whom either purchased or transported gas under interruptible rate schedules. The remainder of the Company's throughput consisted of firm sales service to residential and small and medium-sized commercial customers.

| 1 | Q. | PLEASE DESCRIBE THE COMPANY'S GAS SUPPLY PROCUREMENT |
|---|----|--|
| 2 | | POLICY. |

A.

The Company's system and its gas supply procurement policy are designed to serve firm customers reliably on a peak day. In providing sales services, the Company must acquire supplies of natural gas and arrange for their delivery to the Company's system. The most appropriate description of the Company's gas supply procurement policy is a best-cost supply strategy, which is based on three primary criteria: supply security, operational flexibility, and cost of gas.

The first and foremost criterion is security of gas supply, which refers to the assurance that gas will be available when needed for firm sales customers. Supply security is obtained through a diverse portfolio of suppliers, receipt points, purchase quantity commitments, and terms. Potential suppliers are evaluated on a variety of factors, including past performance, creditworthiness, available terms, gas deliverability options, and supply location.

The second criterion is maintaining the necessary operational flexibility that will enable the Company to react to the effects of unpredictable weather on firm sales customer usage. The Company's gas supply portfolio must be capable of handling the monthly, daily, and hourly changes in these customers' demand needs. Operational flexibility largely results from gas supply agreements having different purchase commitments and swing capabilities (for example, the ability to adjust purchased gas within the contract volume on either a monthly or daily basis) and from injections into and withdrawals out of storage.

The third criterion is the cost of gas. In evaluating costs, it is important to consider not only the actual commodity cost, but also any transportation-related charges such as reservation, usage, and fuel charges. The Company routinely requests gas supply bids from suppliers to help ensure cost-effective proposals. In requests for proposal, suppliers are asked to submit alternative pricing options they believe may be of interest or value to the Company and its customers. Typically, the greater the flexibility that the Company has with a supply contract, the higher the premium assessed. In securing natural gas supply for its customers, the Company remains committed to acquiring the most cost-effective supplies of gas available while maintaining the necessary supply security and operational flexibility.

A.

12 Q. WHAT TYPES OF SUPPLY CONTRACTS DOES THE COMPANY HAVE13 IN ITS PORTFOLIO?

- The Company has developed a gas supply portfolio made up of long-term agreements and supplemental short-term agreements with a variety of suppliers, including both producers and independent marketers. The portfolio includes:
 - Baseload contracts, which provide fixed volumes of gas each day of the contract term.
 - Physical option contracts, which provide flexibility to modify
 the volumes delivered on a monthly or daily basis in order to
 address changing demands and weather patterns.
 - No-notice contracts, which provide flexibility to increase or decrease delivered volumes on a daily basis to respond to

| 1 | | changing operational demands and weather. |
|----|----|---|
| 2 | | • Spot (daily) market contracts, which are primarily used for price |
| 3 | | mitigation, system balancing, and peak shaving. |
| 4 | | The Company's gas supply portfolio had approximately 222,000 |
| 5 | | dekatherms per day under term contracts with seven different suppliers as of |
| 6 | | November 1, 2018, the beginning of the winter heating season for the period |
| 7 | | under review. All of these contracts included provisions to ensure the prices |
| 8 | | paid were market based. The remaining contracts were for purchases in the spot |
| 9 | | market. Spot purchase contracts do not include reservation fees but reflect only |
| 10 | | commodity cost, generally by reference to standard indices or negotiated prices. |
| 11 | Q. | HOW DOES THE COMPANY CALCULATE ITS FIRM CUSTOMERS' |
| 12 | | DEMAND REQUIREMENTS? |
| 13 | A. | Projected design-day demand of the Company's firm customers is calculated |
| 14 | | using a statistical modeling program prepared by DES Services Resource |
| 15 | | Planning personnel. The model assumes a 50 heating degree-day on a 60 degree |
| 16 | | Fahrenheit base and uses historical weather to estimate peak-day demand. |
| 17 | Q. | WHAT DESIGN-DAY REQUIREMENTS DID THE COMPANY USE |
| 18 | | DURING THE REVIEW PERIOD AND HOW DID THE COMPANY PLAN |
| 19 | | TO MEET THOSE REQUIREMENTS? |
| 20 | A. | Jackson Exhibit 1 is a table showing the forecasted firm peak-day demand |
| 21 | | requirements for the review period and for the next five winter seasons. It also |
| 22 | | lists the assets available to meet those firm peak-day requirements. These assets |
| 23 | | include year-round, seasonal, and peaking capabilities and consist of firm |

transportation and storage capacity on interstate pipelines as well as the peaking capability of the Company's on-system liquefied natural gas facility at the Cary Energy Center.

A.

As shown on Jackson Exhibit 1, the Company will need additional interstate capacity to serve expected peak-day requirements beginning in the upcoming winter of 2019-20. Later in my testimony I will discuss what steps the Company has taken to acquire the necessary capacity.

Q. WHAT PROCESS DOES THE COMPANY UNDERTAKE TO ACQUIRE CAPACITY TO MEET ITS CUSTOMER DEMAND?

The Company's design-day demand forecast projects firm customer load growth and is used to determine total asset needs. This forecast is updated annually and capacity alternatives are evaluated on an on-going basis. If needed, the Company secures incremental storage or transportation capacity to meet the growth requirements of its firm sales customers consistent with its best-cost strategy. To acquire long-term expansion capacity precisely in balance with customer needs is impossible due to many external factors beyond the Company's control. In assessing the type of resources needed to meet its design-day demand, the Company attempts to minimize the per unit delivered gas cost. This analysis incorporates any transportation charges, storage costs, and supplier reservation fees required to deliver gas to the city gate, as well as the reliability and timing of new services.

- 22 Q. PLEASE DESCRIBE THE COMPANY'S INTERSTATE CAPACITY.
- A. The Company subscribes to interstate capacity so that gas can be delivered from

| | supply areas of gas storage facilities to the Company's local distribution system. |
|----|--|
| | The interstate transportation and storage providers with whom the Company |
| | has transportation or storage service contracts include Transcontinental Gas |
| | Pipeline Company, LLC ("Transco"); Columbia Gas Transmission, LLC |
| | ("Columbia Gas"); Dominion Energy Cove Point LNG, LP ("Cove Point"); |
| | Dominion Energy Transmission, Inc. ("DETI"); East Tennessee Natural Gas, |
| | LLC ("East Tennessee"); Pine Needle LNG Company, LLC ("Pine Needle"); |
| | Saltville Gas Storage Company, L.L.C. ("Saltville"); and Texas Gas |
| | Transmission, LLC ("Texas Gas"). The vast majority of the Company's firm |
| | transportation and storage capacity is obtained from Transco, the only interstate |
| | pipeline to which the Company's system currently is directly connected. The |
| | Company has previously used segmentation of the Transco firm transportation |
| | capacity to schedule backhaul deliveries of gas, on a secondary firm basis, from |
| | Columbia Gas, Cove Point, DETI, East Tennessee/Saltville, Pine Needle, and |
| | Texas Gas - natural gas storage facilities and connecting pipelines located |
| | downstream of the Company's system. As I have testified in previous gas cost |
| | reviews, the Company has increasingly been unable to use segmentation of its |
| | Transco capacity due to changes in gas flows on the Transco system. |
| Q. | HOW DID THE COMPANY ADDRESS THE LIMITATIONS OF |
| | SEGMENTATION DURING THE REVIEW PERIOD? |
| A. | The Company entered into an agreement to have firm delivery of 60,000 |
| | dekatherms per day of gas during the months of November 2018 through March |

2019, notwithstanding any restrictions imposed by Transco on secondary

| 1 | | backhaul transportation. For this service the Company agreed to pay |
|----|----|--|
| 2 | | reservation fees during those months. The Company has entered into a similar |
| 3 | | arrangement for the upcoming winter period. |
| 4 | Q. | WHAT ARE THE COMPANY'S PLANS FOR ACQUIRING ADDITIONAL |
| 5 | | INTERSTATE PIPELINE CAPACITY? |
| 6 | A. | In last year's gas cost review, I provided the Commission with details |
| 7 | | concerning the Company's plans for acquiring capacity on the following |
| 8 | | interstate pipeline projects: |
| 9 | | • Transco's Southeastern Trail Expansion project, which will |
| 10 | | provide additional firm transportation service with a receipt point |
| 11 | | at the existing Pleasant Valley Transco-Cove Point |
| 12 | | interconnection in Fairfax County, Virginia, and a delivery point |
| 13 | | at the existing Transco Station 65 pooling point in St. Helena |
| 14 | | Parish, Louisiana. This capacity will allow the Company to |
| 15 | | schedule deliveries on a primary firm, forward-haul basis and will |
| 16 | | replace the secondary backhaul transportation that the Company |
| 17 | | previously relied on through segmentation. |
| 18 | | • Atlantic Coast Pipeline ("ACP"), a 550-mile pipeline project that |
| 19 | | will run from Harrison County, West Virginia, to Robeson |
| 20 | | County, North Carolina. This capacity will allow the Company to |
| 21 | | transport natural gas from supply areas located in the Marcellus |
| 22 | | and Utica shale basins of West Virginia, Pennsylvania, and Ohio |

23

and take deliveries off the pipeline at points on the eastern side of

- 2 Mountain Valley Pipeline ("MVP"), which will run from 3 northwestern West Virginia to a point in Pittsylvania County, 4 Virginia, and MVP's Southgate project, an approximately 70-mile 5 lateral to the Company's Dan River and Haw River interconnects 6 in Rockingham and Alamance Counties, North Carolina, 7 respectively. This capacity will provide the Company a third 8 interstate pipeline interconnection, access to natural gas produced 9 in the Marcellus and Utica shale regions, and a direct connection 10 to East Tennessee's pipeline that will replace less reliable 11 secondary backhaul deliveries on Transco.
- 12 Q. PLEASE PROVIDE AN UPDATE ON THE PROJECTED IN-SERVICE
 13 DATES FOR THESE PROJECTS.
- 14 A. The Southeastern Trail Expansion is expected to be in service by late 2020, as 15 is MVP Southgate. ACP's expected in-service date currently is early 2021.
- 16 Q. WHAT STEPS HAS THE COMPANY TAKEN TO BRIDGE THE
 17 CAPACITY SHORTFALL PENDING COMPLETION OF THESE
 18 PROJECTS?
- A. For the 2019-20 winter season, the Company will issue a request for proposals of firm delivered supply to the city gate. MVP Southgate is expected to be placed into service during the 2020-21 winter season. In the event the in-service date for that project were to be delayed, the Company would need to seek an arrangement similar to the one for the 2019-20 winter season to cover the

| 1 | | shortfall. |
|----|----|---|
| 2 | Q. | HAVE YOU PROVIDED THE INFORMATION CONCERNING |
| 3 | | CAPACITY ACQUISITION AS REQUIRED BY THE COMMISSION'S |
| 4 | | ORDER IN DOCKET NO. G-100, SUB 91? |
| 5 | A. | Yes. The Company's responses to the ten questions set forth in that order are |
| 6 | | attached as Jackson Exhibit 2. |
| 7 | Q. | WHAT ADDITIONAL ACTIONS HAS THE COMPANY TAKEN TO |
| 8 | | ACCOMPLISH ITS BEST-COST POLICY? |
| 9 | A. | The Company continues to take the following steps to keep its gas costs as low |
| 10 | | as possible while accomplishing its stated policy goals of maintaining security |
| 11 | | of supply and delivery flexibility: |
| 12 | | • Optimize the flexibility available within its supply and capacity |
| 13 | | contracts to realize their value. |
| 14 | | Monitor and intervene in matters before the FERC whose actions |
| 15 | | could impact the rates that the Company pays and the services it |
| 16 | | receives from interstate pipelines and storage facilities. |
| 17 | | Work with industrial customers to facilitate transportation of |
| 18 | | customer-acquired natural gas. |
| 19 | | • Communicate directly with customers, suppliers, and other |
| 20 | | industry participants and actively monitor developments in the |
| 21 | | industry. |
| 22 | | • Conduct frequent internal discussions concerning gas supply |
| 23 | | policy and major purchasing decisions. |

| 1 | • | Utilize deferred gas cost accounting to calculate the Company's |
|---|---|--|
| 2 | | benchmark cost of gas to provide a smoothing effect on gas price |
| 3 | | volatility. |

- Conduct a hedging program to mitigate price volatility.
- Q. PLEASE DESCRIBE THE FERC PROCEEDINGS THAT THE COMPANY
 PARTICIPATED IN DURING THE REVIEW PERIOD.
 - Jackson Exhibit 3 is a complete listing of the new FERC matters that the Company intervened in during the review period. The Company may not have stated a position in a particular proceeding but filed an intervention without protest or comment. Such interventions typically are made in proceedings where the Company has an interest and the issues or dollar impact appears to be relatively minor but might escalate and become significant at a later date or where the Company would like to receive more information from the participants on an issue in order to monitor future developments. Unless specifically indicated in the last column of Jackson Exhibit 3, the Company did not express a position during its participation in a matter listed.
 - Q. WHAT IS THE PURPOSE OF THE COMPANY'S HEDGING PROGRAM?
 - A. The primary objective of the Company's hedging program has always been to help mitigate the price volatility of natural gas for firm sales customers at a reasonable cost. The hedging program meets this objective by having financial instruments such as call options or futures in place to mitigate in a cost-effective manner the impact of unexpected or adverse price fluctuations to customers.

A.

- 1 Q. PLEASE DESCRIBE THE COMPANY'S HEDGING PROGRAM.
- 2 A. The Company's hedging program provides protection from higher prices
- 3 through the purchase of call options for up to 25% of estimated firm sales
- 4 volume. In order to help control costs, the call options are purchased at a price
- 5 no higher than 10% of the underlying commodity price. Hedges also are limited
- to a 12-month future time period, which allows the Company to obtain
- favorable option pricing terms and better react to changing market conditions.
- 8 The hedging program continues to utilize two proprietary models developed by
- 9 Kase and Company that assist in determining the appropriate timing and volume
- of hedging transactions. The total amount available to hedge is divided equally
- between the two models.
- 12 Q. HAS THE COMPANY MADE ANY CHANGES TO ITS HEDGING PLAN?
- 13 A. No changes were made to the Company's hedging program during the review
- 14 period. However, the Company continues to analyze and evaluate the program
- and will implement changes as warranted.
- 16 Q WHAT WAS THE NET ECONOMIC RESULT OF THE HEDGING
- 17 PROGRAM DURING THE REVIEW PERIOD?
- 18 A. During this period, New York Mercantile Exchange prices at the Henry Hub in
- Louisiana ranged from a low of \$2.543 per dekatherm for the March 2019
- 20 contract set on February 15, 2019, to a high of \$4.929 per dekatherm for the
- December 2018 contract set on November 14, 2018. Overall, the hedging
- program decreased gas costs by \$832,249 during the review period.

- 1 Q. IN YOUR OPINION, WERE ALL OF THE REVIEW PERIOD GAS COSTS
- 2 PRUDENTLY INCURRED?
- 3 A. Yes. All of these gas costs were incurred under the Company's best-cost supply
- 4 strategy, which this Commission has consistently upheld. In my opinion, they
- 5 are the result of reasonable business judgments in light of the conditions under
- 6 which the gas purchasing decisions were made.
- 7 Q. DOES THIS CONCLUDE YOUR TESTIMONY?
- 8 A. Yes.

DESIGN-DAY DEMAND REQUIREMENTS AND AVAILABLE ASSETS FOR WINTER SEASONS FROM 2018-19 THROUGH 2023-24

^{*} Does not include Mountain Valley Pipeline capacity scheduled to be in service by late 2020 or Atlantic Coast Pipeline capacity scheduled to be in service by early 2021.

Information Pursuant To Order Requiring Reporting Issued In Docket No. G-100, Sub 91

1. Please describe any changes in the Company's customer mix or customer market profiles that it forecasts for the next ten (10) years and explain how the changes will impact the Company's gas supply, transportation, and storage requirements.

No significant changes are expected.

2. Please identify the rate schedules and special contracts that the Company uses to determine its peak day demand requirements for planning purposes. Please explain the rationale and basis for each rate schedule or special contract included in the determination of peak day demand requirements.

The Company's demand forecast methodology utilizes actual daily measured volumes to determine its peak-day demand requirements for planning purposes. the Company initially considers total daily throughput, which includes all rate schedules, and then deducts daily transportation volumes (Rate Schedules 175 and 180). Because volumes for interruptible sales (Rate Schedule 150) customers are within the statistical margin of error, this rate schedule is not deducted.

3. Please provide the base load requirements estimated for the review period and forecasted for each of the next five (5) years.

For the review period, the Company's estimated winter base load requirements were approximately 90,000 dekatherms per day. The Company's forecasted winter base load requirement for each of the next five years is approximately 82,000 dekatherms per day.

4. Please provide the one-day design peak demand requirements used by the Company for planning purposes for the review period and forecasted for each of the next five (5) winter seasons. The peak demand requirement amounts should set forth the estimated demand for each rate schedule or priority with peak day demand. All assumptions, such as heating degree-days, dekatherms per heating degree-day, customer growth rates, and supporting calculations used to determine the peak day requirement amounts should be provided.

Design day requirements are set forth on Jackson Exhibit 1. The Company's demand forecast methodology utilizes actual daily measured volumes for the entire system and then deducts daily transportation volumes based on actual daily measurement data. Therefore, the demand for each rate schedule is not used to determine design-day demand requirements. The Company performs a regression analysis using 50 heating degree-days (HDDs) on a 60 degree Fahrenheit base to project design-day usage.

5. Please explain how the Company determines which type of resource should be acquired or developed for meeting the Company's deliverability needs, and describe the factors evaluated in deciding whether the Company should acquire pipeline transportation capacity, acquire a storage service, or develop additional on-system storage deliverability.

Resource acquisition depends on several factors. These primarily include: (1) whether the need is year-round, seasonal, or peaking in nature; (2) availability of the resource; (3) operational flexibility requirements; and (4) the relative costs of service.

6. Please describe how the Company determines the amount of pipeline capacity that should be acquired for (a) the whole year, (b) the full winter season, and (c) less than the full winter season. Also, please describe the factors evaluated in determining the appropriate amount and mix of service period options.

The Company maintains a level and mix that ensures its firm system requirements and operational flexibility requirements are satisfied. The Company plans for sufficient capacity to be available on a design day, while seeking to avoid underutilization of capacity. The Company continually monitors historical usage and expected requirements. Before acquiring additional capacity, the Company evaluates whether a year-round or seasonal service period is appropriate and will seek either to increase demand on an existing contract or to secure a new contract. The type of service acquired depends on availability, economics, and satisfaction of operational flexibility requirements.

7. Please describe each new capacity and storage opportunity that the Company is contemplating entering into during the next five (5) year period.

The Direct Testimony of Rose M. Jackson at pages 9 and 10 provides an update of the capacity opportunities that the Company contemplated during the review period. The Company currently is not contemplating entering into any other opportunity during the next five years.

8. Please provide a computation of the reserve or excess capacity estimated for the review period and forecasted for each of the next five (5) years.

The requested information is set forth on Jackson Exhibit 1.

9. Please describe any significant storage, transmission, and distribution upgrades required for the Company to fulfill its peak day requirements during the next five (5) years.

See Jackson Exhibit 2 Attachment which is confidential and therefore being filed under seal.

10. In determining which type of resource should be required, what steps, if any, did the Company take during the review period to seek out service agreements from competitive suppliers pursuant to the provisions of G.S. 62-36B?

See the response to Question 7 above.

PROCEEDINGS BEFORE THE FEDERAL ENERGY REGULATORY COMMISSION IN WHICH PSNC PARTICIPATED AS A PARTY FROM APRIL 2018 THROUGH MARCH 2019

| Date | Pipeline | Docket No. | Docket Description | Company Position |
|---------|--|--------------|---|----------------------|
| 4/3/18 | East Tennessee Natural Gas, LLC | RP18-621-000 | On March 28, 2018, East Tennessee filed its annual cash-out report. | Motion to intervene. |
| 4/3/18 | Columbia Gas Transmission, LLC | RP18-633-000 | On March 29, 2018, Columbia Gas made its semiannual filing to adjust the operational transaction rate adjustment surcharge for the upcoming summer season. | Motion to intervene. |
| 4/3/18 | Pine Needle LNG Company, LLC | RP18-652-000 | On March 29, 2018, Pine Needle made its annual fuel retention percentage and electric power rate filing. | Motion to intervene. |
| 4/3/18 | Transcontinental Gas Pipe Line Company, LLC | CP18-145-000 | On March 27, 2018, Transco filed an application for an order approving reduced certificated operating pressures for and a partial abandonment of the capacity of Caverns 5, 6, and 7 at the Eminence Storage Field. | Motion to intervene. |
| 4/18/18 | Transcontinental Gas Pipe Line Company, LLC | CP18-166-000 | On April 11, 2018, Transco filed an application for a certificate of public convenience and necessity to construct and operate its Southeastern Trail Project. | Motion to intervene. |

Docket No. G-5, Sub 608 Page 7 of 7

BEFORE THE

NORTH CAROLINA UTILITIES COMMISSION

PUBLIC SERVICE COMPANY OF NORTH CAROLINA, INCORPORATED DOCKET NO. G-5, SUB 608

DIRECT TESTIMONY

OF

CANDACE A. PATON

May 31, 2019

- 1 Q. PLEASE STATE YOUR NAME, BUSINESS ADDRESS, BY WHOM YOU ARE
- 2 EMPLOYED AND IN WHAT CAPACITY.
- 3 A. My name is Candace A. Paton. I am employed by Dominion Energy Southeast
- 4 Services, Inc., formerly SCANA Services, Inc., as Rates & Regulatory Manager for
- 5 Public Service Company of North Carolina, Incorporated d/b/a Dominion Energy
- 6 North Carolina ("the Company"). My business address is 800 Gaston Road,
- 7 Gastonia, North Carolina 28056.
- 8 Q. PLEASE SUMMARIZE YOUR EDUCATIONAL BACKGROUND, WORK
- 9 EXPERIENCE AND OTHER QUALIFICATIONS.
- 10 A. My qualifications and work experience are set forth in Appendix A.
- 11 Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY IN THIS PROCEEDING?
- 12 A. The purpose of my testimony is to provide the data necessary to true-up the
- 13 Company's actual gas costs with the gas costs billed to our customers during the
- 14 12-month review period ended March 31, 2019. Commission Rule R1-17(k)(6)
- sets forth the filing requirements for the annual review of gas costs. Subsection (c)
- requires the Company to file certain data showing actual gas costs, volumes of gas
- purchased, and such other information as may be directed by the Commission.
- 18 Q. HAVE YOU PREPARED AND FILED THE DATA REQUIRED BY
- 19 COMMISSION RULE R1-17(k)(6)(c)?
- 20 A. Yes. The required information is provided in Schedules 1 through 10 of Paton
- 21 Exhibit 1 attached to my testimony. The following schedules were prepared in the
- 22 prescribed format:
- Schedule 1: Summary of Cost of Gas Expense

| Schedule 2: Summary of Demand and Stora | age Charges |
|---|-------------|
|---|-------------|

- 2 Schedule 3: Summary of Commodity Gas Cost
- 3 Schedule 4: Summary of Other Cost of Gas Charges (Credits)
- 4 Schedule 5: Summary of Demand and Storage Rate Changes
- 5 Schedule 6: Summary of Demand and Storage Capacity Level Changes
- 6 Schedule 7: Summary of Demand and Storage Costs Incurred Versus
- 7 Collected
- 8 Schedule 8: Summary of Deferred Account Activity Sales Customers Only
- 9 Account
- Schedule 9: Summary of Deferred Account Activity All Customers
- 11 Account
- 12 Schedule 10: Summary of Gas Supply
- In addition, Paton Exhibit 2 sets forth the review period Hedging Deferred Account
- 14 Activity.
- 15 Q. DID THE COMPANY FOLLOW THE GAS COST ACCOUNTING
- PROCEDURES PRESCRIBED BY RULE R1-17(k) FOR THE TWELVE
- 17 MONTHS ENDED MARCH 31, 2019?
- A. Yes. All accounting was done in accordance with Sections (4) and (5) of Rule R1-
- 19 17(k).
- 20 Q. HAS THE COMPANY FILED MONTHLY AN ACCOUNTING OF GAS COSTS
- 21 AND DEFERRED ACCOUNT ACTIVITY WITH THE COMMISSION AND
- THE PUBLIC STAFF?
- A. Yes, the required filings were made.

| 1 | Q. WHAT ACTIVITY OCCURRED IN THE SALES CUS | TOMERS ONLY | | |
|----|--|--------------------|--|--|
| 2 | DEFERRED ACCOUNT DURING THE TWELVE MONTHS | ENDED MARCH | | |
| 3 | 31, 2019? | | | |
| 4 | A. The activity in the Sales Customers Only deferred account is se | t forth below: | | |
| 5 | Under-Collection as of March 31, 2018 | \$1,443,014 | | |
| 6 | Commodity Cost Over-Collections | (\$4,443,586) | | |
| 7 | Hedging Deferred Account Balance as of March 31, 2018 | \$2,376,550 | | |
| 8 | Uncollectible Gas Cost | \$433,706 | | |
| 9 | Miscellaneous Adjustments | (\$655,539) | | |
| 10 | Accrued Interest | <u>\$146,508</u> | | |
| 11 | Over-Collection as of March 31, 2019 | (\$699,747) | | |
| 12 | Q. WHAT ACTIVITY OCCURRED IN THE ALL CUSTOM | ERS DEFERRED | | |
| 13 | ACCOUNT DURING THE TWELVE MONTHS ENDED MA | RCH 31, 2019? | | |
| 14 | A. The activity in the All Customers deferred account is set forth b | elow: | | |
| 15 | Over-Collection as of March 31, 2018 | (\$13,770,526) | | |
| 16 | Demand Cost Under-Collections | \$22,309,241 | | |
| 17 | Commodity Cost Under-Collections | \$249,999 | | |
| 18 | All Customers Decrement | \$15,423,574 | | |
| 19 | Miscellaneous Adjustments | \$637,872 | | |
| 20 | Secondary Market Transaction Credits | (\$27,353,971) | | |
| 21 | Supplier Refunds | (\$438,560) | | |
| 22 | Accrued Interest | (<u>\$97,813)</u> | | |
| 23 | Over-Collection as of March 31, 2019 (<u>\$3,040,186</u>) | | | |

- 1 Q. DID THE COMPANY ACCOUNT FOR CAPACITY RELEASE AND OTHER
- 2 SECONDARY MARKET TRANSACTIONS DURING THE REVIEW PERIOD
- 3 IN ACCORDANCE WITH THE COMMISSION'S ORDER IN DOCKET NO. G-
- 4 100, Sub 67?
- 5 A. Yes, seventy-five percent of the net compensation received from secondary market
- 6 transactions was recorded in the All Customers deferred account.
- 7 Q. PLEASE DISCUSS PATON EXHIBIT 2.
- 8 A. Paton Exhibit 2 reflects the cash transactions associated with the Company's
- 9 hedging program during the 12-month review period ended March 31, 2019. As of
- the end of the review period, there was a credit balance of \$832,249 due to sales
- customers in the Hedging deferred account. When added to the \$699,747 credit
- balance in the Sales Customers Only deferred account, the total is \$1,531,996 due
- to sales customers.
- 14 Q. DOES THE COMPANY CURRENTLY HAVE ANY TEMPORARY RATE
- 15 INCREMENTS OR DECREMENTS RELATED TO ITS SALES CUSTOMERS
- 16 ONLY AND ALL CUSTOMERS DEFERRED ACCOUNTS?
- 17 A. Yes, temporary increments applicable to the All Customers deferred account took
- 18 effect May 1, 2019.
- 19 Q. DOES THE COMPANY PROPOSE NEW TEMPORARY RATE INCREMENTS
- 20 OR DECREMENTS?
- 21 A. The Company is not proposing new temporary rate increments or decrements at
- 22 this time. The Company proposes to leave the current temporary increments
- 23 applicable to the All Customers deferred account in place and monitor the balance

- in the account to determine when or if changes are required. The Company proposes to continue its practice of taking into consideration the balance in the Sales Customers Only deferred account when evaluating whether to file for a change in
- 5 smaller, adjustments in the benchmark cost of gas is preferable to making one

the benchmark cost of gas. The Company believes that making periodic, and

- 6 adjustment annually based on the over- or under-collection in commodity cost of
- gas that may exist as of the end of the review period.
- 8 Q. IN DOCKET NO. G-5, SUB 442, THE COMMISSION STATED THAT IN
- 9 FUTURE GAS COST PRUDENCE REVIEWS THE COMPANY SHOULD
- 10 DISCUSS ANY SIGNIFICANT ACCOUNTING CHANGES THAT
- 11 OCCURRED DURING THE REVIEW PERIOD. WERE THERE ANY SUCH
- 12 CHANGES DURING THE REVIEW PERIOD?
- 13 A. The Company did not make any significant accounting changes during the review
- period. However, adjustments were recorded in both the Sales Customers and All
- 15 Customers Deferred Accounts in February 2019 to reclassify certain reservation
- 16 fees. As discussed in Ms. Jackson's testimony, the Company acquired firm delivery
- of 60,000 dekatherms per day of gas during the months of November 2018 through
- March 2019 to address the limitations of segmentation on Transco. The terms of
- this service provided for payment of monthly reservation fees. The Company
- 20 initially accounted for these fees as commodity costs as it routinely does with
- supply contract reservation fees. Subsequently the Company adjusted the deferred
- 22 accounts to effectively reclassify these fees as demand charges rather than

- 1 commodity charges. These fees are shown as demand charges on Schedules 1 and
- 2 2 of Paton Exhibit 1.
- 3 Q. DOES THIS CONCLUDE YOUR TESTIMONY?
- 4 A. Yes.

APPENDIX A

CANDACE A. PATON QUALIFICATIONS & EXPERIENCE

EDUCATION:

1979 Bachelor of Arts in Accounting

North Carolina State University

PROFESSIONAL UTILITY REGULATORY EXPERIENCE:

August 2002 to Present Rates & Regulatory Manager,

Public Service Company of North Carolina, Inc.

Presented testimony before the NCUC in annual prudence

reviews, general rate cases, and expansion fund filing

July 2001 to August 2002 Independent Consultant

April 1999 to March 2001 Supervisor, Regulatory Accounting

Carolina Power & Light Company

January 1991 to April 1999 Manager, Regulatory Accounting

Duke Power Company

Presented testimony before the NCUC in various fuel clause

proceedings and an Integrated Resource Planning

proceeding

August 1987 to December 1990 Project Manager & Manager, Revenue Requirements

Potomac Electric Power Company

January 1987 to August 1987 Public Staff of the North Carolina Utilities Commission

and October 1979 to July 1985 Public Utilities Accountant II

Presented testimony before the NCUC in various telephone, electric and water & sewer general rate case proceedings

April 1986 to December 1986 Texas Office of Public Utility Counsel

Chief Accountant

Presented testimony before the Texas Public Utility

Commission in telephone & electric rate case proceedings

July 1985 to March 1986 Telecommunications Specialist

North Carolina Utilities Commission
