Clerk's Office
N.C. Utilities Commission

E100 SUB 137

I want to thank you for the new higher price on my electric bill. It has gone from \$50. a month to over \$70. dollars. Take that from my S.S.

check of \$400. a month and now I can do without food, air conditioning and medicine. Just paid my property tax which took one month S.S. check and with the gas prices at \$3.70 a gallon it pretty well sinks my ship.

Thank you again for taking care of the citizens of North Carolina. I now can sit on my front porch and look at the beautiful mountains while I die! Can you think of any other payments you can increase for us?

Thanks again...

Hope you have a nice steak dinner on me... or should I say my tax dollar. Oh, one more thing... thanks for the \$260. heating bill I will receive this winter if I'm still alive... oh, that's right... no heat this winter... no money... oh well. Think of me when you sit down to eat your steak in you nice warm house!
