To The NC Public Utilities Commission:

RE: Docket Number E-2 Sub 1219

Please, please, please do not allow Duke Energy to make their consumers pay for Duke's negligent behavior that is evident in the following ways:

- Duke Energy defied the advice of scientists and experts for years while disposing of its toxic coal ash in irresponsible and unsafe ways — all to make shareholders a few more dollars in profit. They should bear the cost of cleaning up their own mess.
- No rate hikes for dirty energy! Duke Energy should be investing in renewable energy, not natural gas.
- Duke should first have a plan to shut down all coal-powered plants, stop building more natural gas plants and transition to renewable energy.

Regards,
