Dear NCUC, I am writing to you today to request to request that analog electric meters be offered to Duke Energy customers who are sensitive to Smart Meter Radiation-(since I have a compromised immune system), as explained further in this study: by The American Academy of Environmental Medicine (AAEM which) has studied the health effects of RFR and electromagnetic fields (EMFs) for over 20 years and recommends "immediate caution on Smart Meter installation due to potentially harmful RF exposure, accommodation for health considerations regarding EMF and RF exposure, including exposure to wireless Smart Meter technology, and the use of safer technology, including for Smart Meters, such as hard-wiring, fiber optics or other non-harmful methods of data transmission. Please consider this, thanks, Gene S, Triplett
