I support the free energy act 245

I think that after the coal ash spill and contaminating our water supply that this bill should be supported by all legislation global warming is a fact no longer grandpas hogwash I feel that your constituents are doomed if you do not uphold this law sorry but the new man is in town and solar power is here to stay so how about doing the right thing instead of listening to hog wash however you want to interpret that it is what it is thank you Chad Kinney Salisbury nc
