Subject: Docket No. G-9, Sub 743: No more rate hikes for dirty energy

Dear North Carolina Utilities Commission,

I'm writing to ask the Utilities Commission to side with the people, families, and businesses who cannot afford another rate hike for dirty energy. Please reject this proposed rate hike for fossil fuels.

Piedmont Natural Gas (PNG) is owned by Duke Energy, the largest utility in the United States. They are among the largest emitters of greenhouse gases in the country. Robeson County is already home to the terminus of a proposed \$7.8 billion dollar fracked gas pipeline. Funding more of these unnecessary, dangerous, and dirty projects are uncalled for.

As part of the largest energy producer and purchaser in the state, we urge the utilities commission to reject Duke Energy and PNG's proposed rate hike. We need to be investing in cleaner, cheaper, renewable energy as a state. Building more stranded assets that rely on fossil fuels will leave some of the poorest places holding the bill.

Sincerely,

Elizabeth Riddle

Dear North Carolina Utilities Commission,

We know that we in Sanford, NC don't have a lot of sway over the energy industry. But we are just as interested as anyone in clean, renewable energy being our dominant source of energy. This doesn't help us reach that goal. Come on, Duke. We already have tons of coal ash in our county. Make up for previous mistakes.

I'm writing to ask the Utilities Commission to side with the people, families, and businesses who cannot afford another rate hike for dirty energy. Please reject this proposed rate hike for fossil fuels.

Dear North Carolina Utilities Commission,

We need to do everything possible to discourage the continued reliance on fossil fuels, and the only way a rate hike can be justified is if it is earmarked for investment in clean energy. Otherwise a BIG NO please to this rate hike.

I'm writing to ask the Utilities Commission to side with the people, families, and businesses who cannot afford another rate hike for dirty energy. Please reject this proposed rate hike for fossil fuels.

Dear North Carolina Utilities Commission,

On disability. Can't afford anymore money hikes to take from the little money I get to survive on now. Since my disability started many years ago working hard, my pay is only 543.00 a month and forcing to reach out to others.
Don't raise my already high energy costs!

I'm writing to ask the Utilities Commission to side with the people, families, and businesses who cannot afford another rate hike for dirty energy. Please reject this proposed rate hike for fossil fuels.

Message

I greatly protest any rate increase by Piedmont Natural Gas, affiliate of Duke Energy. Both Duke and Piedmont have requested rate increase when Duke's CEO was paid \$21,000,000.00 last year in salary, bonuses, and stock options. I'm not sure, at this time of the names, salaries of Piedmont Natural Gas, however, I'm sure it is in excess of millions of dollars. Both entities have no competition of services, having a strangle hold on customers and Duke in famous for outages, my having many over the 24 years I have lived at my current address. C.E.O's and other high level employees are paid excessive salaries and when there is a power outage, it is impossible to contact anyone as Duke's outage phone request one contact them via the Internet when it is impossible to do so without power to operate a computer to get on the internet. Say no to both entities regarding rate increases at this time!!!!

E-mail correspondence to and from this address may be subject to the North Carolina Public Records Law and may be disclosed to third parties by an authorized state official.
