Docket

Sub 834 and E-7 Sub 1115

Message

Address: 308 E. Sondley Dr., Asheville, NC 28805 An Opt-Out meter was installed on our home yesterday. We had it tested it with a professional-quality RF (Radio Frequency) meter and high levels of RF radiation being emitted from the meter were detected. There is a low-level background signal and then a burst of radiation at periodic intervals. Duke Energy should either be required to (1) test these meters prior to installation to insure there is no radiation being transmitted and (2) provide a notarized statement or certification to the customer that the meter being installed does not transmit RF radiation or provide an analog meter.

E-mail correspondence to and from this address may be subject to the North Carolina Public Records Law and may be disclosed to third parties by an authorized state official.
