I'm a builder in Asheville area and a rate payer, I cannot stress enough how much DEP's Residential New Construction Program has done to promote efficiency, save money, and reduce greenhouse gases. The incentive has produced quantifiable savings, and we have seen firsthand more savings in the DEP territory versus DEC where the incentive has been in place for several years. Having the incentives available in DEC territory would be good for residents of our state. I am asking the Commission to weigh in on this matter and to direct DEC and the gas utilities to come up with a solution that will allow this incentive to be available for DEC customers.
