### Docket

E-7 Sub 1155

### Message

As a ratepayer and building professional in Western North Carolina, I cannot stress enough how much DEP's Residential New Construction Program has done to promote efficiency, save money, and reduce greenhouse gases in the area formerly serviced by Progress Energy. The incentive has produced quantifiable savings, and we have seen firsthand more savings in the DEP territory versus DEC where the incentive has been in place for several years. Having the incentives available in DEC territory would be a huge benefit for residents of our state. I am asking the Commission to weigh in on this matter and to direct DEC and the gas utilities to come up with a solution that will allow this incentive to be available for DEC customers. The customers in the DEC territory deserve the same benefits that DEP customers have access to. Please make this happen! Thank you.
