Subject: Please hold Duke Energy to a higher standard on saving money and reducing pollution

Clerk's Office
N.C. Utilities Commission

Dear Utilities Commission,

We have asked Duke Energy to take a visionary role in saving money and reducing use of fossil fuels and instead they are fighting to keep clean energy to a minimum in their 2014 IRP. If they will not act responsibly, please act on our behalf for the greater good. Climate change is affecting everyone and leadership on this issue is vital.

Many thanks for your service,

Jennifer Miller
5706 Old Stony Way
Durham, NC 27705
