Docket No E-7 Sub 1155

Message

It is disappointing to see our Utilities Commission not expand this highly successful program. Particularly challenging is the fact that the gas and electric utility who stopped this did it in a private setting with no intervention from NCUC, the public staff or other parties. Expanding this financially proven program would have allowed our company to hire another 6 people to service our builders. And if expanded they would build better homes - that will use electricity for 50 plus years. Now NC ratepayers are going to get more electricity demand and usage for 50 plus years and our utilities will make more money off of all of us. Clearly not what our NCUC and public staff are tasked to do. Very disappointing. Thanks for the opportunity for feedback, Bob Kingery Southern Energy Management 1-919-815-5345
