### **Docket**

Docket No E-7 Sub 1155

### **Message**

We sincerely hope that the utility commission revisit the RNC Program expansion. As a company we are participating in areas that the program is active and have had great support from our customers and trade partners. In the areas that are active, the incentives have allowed us to improve our energy conservation efforts by offering products we normally have not been able too. Our HERS performance has significantly out surpassed other communities in the same geographic area due to the RNC Program. We truly hope that the program can be reinvigorated to expand to the Charlotte market.
