Subject: [External] Aqua NC Request for Increase

CAUTION: External email. Do not click links or open attachments unless you verify. Send all suspicious email as an attachment to report.spam@nc.gov<<mailto:report.spam@nc.gov>>

Please see below what I have written to Joshua Stein.

>>

>> Mr. Stein,

>> I live in Hampstead, North Carolina, in the Castle Bay community and Aqua NC provides our water and septic. The rates are around \$110 per month and jump to approximately over \$160 per month when using the irrigation system. In addition, the water quality is not drinkable, causing us to need an additional water filtration system. The taste is not acceptable, but more importantly, it contains many contaminants, including carcinogens.

>>

>> Due to the issues listed above, I strongly protest any increase that Aqua is pursuing. I appreciate all you can do to resist and deny their request. Thank you!
