RE: NCUC Docket No. E-100 Sub 90, NC GreenPower Board Appointments

Dear Ms. Morris:

Per the approved program plan, the North Carolina Utilities Commission (NCUC) issued an order on August 22, 2016 accepting nominations to appoint one Director's seat to NC GreenPower's Board of Directors. Listed below is the individual and his respective seat that became available due to the individual's change in employment:

Michael Youth	Solar and Wind Technology Representative (renews 09/18)
---------------	---

At the April 8, 2004 Board of Directors meeting, the NC GreenPower Board passed a motion to provide input to the NCUC regarding nominations for NC GreenPower Board appointments. It was passed that the Executive Committee of the NC GreenPower Board would serve as a Nominating Committee for the Board and would discuss the qualifications of the submitted candidates. The Nominating Committee would send to the NCUC a list of any preferred individuals with the appropriate experience, including the current Director in the seat if he/she is interested in continuing to serve.

After careful consideration, the Executive Committee recommends appointing Erik Chris Larsen to the Solar and Wind Technology seat based on his extensive experience in the solar and wind industries, as well as his past involvement and familiarity with NC GreenPower.

NC GreenPower is pleased to have received nominations from such well-qualified candidates and respectfully requests the NCUC to consider the Nominating Committee's recommendation as they appoint the appropriate nominee.

Sincerely,

Robert H. Goodson
Chair
